A wide variety of awesome pub food and handcrafted beers is makes it super special. SKY KARTING We went there on a weekend, and must say that it was buzzing with people. We were amazed to see many karting enthusiasts waiting for their turn to try the most advanced karts in the country as well as the spectacular, world-class racing track designed by a Spain & Germany based firm Protex Karting. The karting area is huge, carries a bluish tinge and features an assortment of neon lights along and around the track, which seems like a scene from a sci-fi movie.

he cars are powered with electric engine and batteries which helps better acceleration, the ride was a thrilling experience. It was one of the most adventurous moment of my life. The Track gives you a complete feel of true racer .You'll get the drive it for 6 minutes for 450 INR on weekdays and 550 INR on weekends. The experience can't be described in words. Evening are better to race , as the zone is transformed into blue light zone which adds more fun , Also they have set prizes if one breaks some set records.
